EXPLANATION

Grade 2–5 · TAAL-WZ-NAT

Name: _____ Class: _____ Date: _____

1 What you will learn

You find words in the grid and learn what they mean. Then you use the words yourself.

WHAT YOU ALREADY KNOW

You can recognise letters and read words.

HOW TO DO IT — STEP BY STEP

1 Read all the words in the word bank first.
Do not know a word? Put a question mark next to it and ask later.

2 Search by the first letter.
Take the word TREE. Find every T in the grid and check whether an R is next to it.

3 Look in every direction.
Words can run across, down and diagonally. On the last page they can run backwards too.

4 Cross the word off your list.
Then you know exactly which words are left.

L	E	A	F	C	E
T	D	X	K	X	I
W	P	T	R	E	E
I	W	F	Q	A	G
G	Q	L	E	W	R
A	Y	Q	J	U	C

TREE
LEAF
TWIG

REMEMBER

Search by the first letter, not the whole word.
Cross off every word you find straight away.

QUESTIE'S TIP

Work row by row with your finger. Looking everywhere at once means looking at the same spot again and again.
